

# Swedish Film Association for everyone

Our motto is:

Film should be made by everyone  
Film should be about everyone  
Film should be seen by everyone

The Swedish Film Association is a national association in the non-profit cultural area. Our values are diversity, gender equality and widened representation.

**Sfilm was founded** in the 1940s, and targets anyone interested in making or watching film. Through film screenings, networking and support, we provide opportunities for filmmakers – regardless of level or experience. We function as a bridge between beginners, established and audience. We are a driving force both on a national and international level, promoting film as an art form, its role in society and distributes Swedish film across the globe. Members of Sfilm are individuals, film clubs and film schools all over Sweden.

#### Festivals, skills and networks

Every year Sfilm arranges Sweden Shortfilm Festival, the oldest film festival in the country, as well as the Swedish One-Minute Film Cup. We award film scholarships and invite filmmakers to hold workshops. We visit schools and participate in the film policy debate. In our action groups, members can work for equality, assess scholarship applications or in other ways gain more experience and a wider network. Every year, we represent Sweden at UNICA and participate in the "World Cup in short films" with Swedish films. Sfilm is a member of Ax, Föreningen Norden and Kulturens.

#### Become a member!

We welcome you to join Sfilm, for access to:

- **A rich network** of contacts through members only news letter, website and meetings
- **Apply for** our film scholarships  
Participate in our film screenings and workshops
- **Opportunity to participate** in one of our working groups
- **Free submissions** to Sweden Shortfilm Festival and our other film festivals
- **Help with your** film production
- **Skill-sharing** through [sfilm.se](http://sfilm.se)

→ [www.sfilm.se](http://www.sfilm.se)

#### Together we folkbildar!

Folkbildning, roughly translated as "Adult Education" is a Swedish national project dating back to the founding of the Swedish welfare state. Sfilm works closely with *Kulturens* educational activities. Together we organize educational opportunities for filmmakers, for example courses or workshops. *Kulturens* is the Study Association for creatives. *Kulturens* works for a diversity of artistic and cultural activities throughout Sweden.

As a member of Sfilm, I have gained experience as a project manager, through which I have gotten to know many people with whom I still collaborate with today!
